Now we're going to do another situation here, okay? I'm going to the knee cut. Boom. I'm going to try to do the second movement, but now he's going to do the knee shoot. So it's going to be hard for me, okay? I'm here, right? First thing I have to do here, let go of the knee. And now look, if I go like this, he's going to frame. So I have to go straight. Boom. Okay. Switch, let go. Take the collar, keep this one. Now I'm going to grab over on his knee here, okay? And from here, I like to put my weight on my outside leg. Okay, so I'm going to do this. I'm going to take my knee out, and I'm going to use my knuckles to push his knee down. Okay? From here, look, I'm going to bring my head close to his shoulder. And now I'm going to start to do, to do, you know, when you go, like, you are on knee on belly, and you switch your knee on belly, we're going to do kind of like same thing. Okay? So I'm here, I'm going to bring my knees together, and I go to the other side. And from here, I like to pull. I like to bring his hip back. And now I let go of the pants, keep the collar, and side control. I like to close my elbow here, and my knee close to his hip. So always when he's doing the hip escapes, I'm going to be able to get close. Okay? One more time. Ooh. Put one here, right? I'm going to the knee cut, but now he's doing the knee shoot on me. Okay? Remember, if you go like this, he's going to block. I go straight. Ooh. Switch my grip, grab on his knee. Okay? Now I put my weight on the outside leg. I'm going to switch. Use your knuckles to push down. And now I bring my head on his shoulder, and go to the other side. Let go. Elbow on his hip, knee on his hip. Okay? And from here, I'm going to be able to have the control. Okay?
