Alright guys, from side control, we're going to do the paper cut choke. So let's try. So we are in the side control here. We are in the side control here, right? So what I want to do here, my right arm, I want to put under his arm here, okay? Under the armpit. So when I put this here, my four fingers go inside of the gi here, okay? So the other one, I'm going to put the thumb inside here, like that, okay? So we are in the side control. I want to open up my arm, open up my leg, go under the armpit, and then grab with my four fingers here, okay? So my thumb goes inside here, and now what I'm going to do, I'm going to come back, drop my knee, and then with the elbow, I'm going to go over, and then drop it here. So the elbow goes on the ground, boom, okay? Let's say when I drop the elbow, he doesn't tap. All I have to do, just push my elbow to the, here, push it up, boom, here. So we're here, side control, my arm goes under the armpit, and the four fingers go inside of the lapel here. Thumb goes here, inside of the lapel, and then grab the gi. Now I'm going to rotate my elbow, and then drop it under his chin, okay? Now elbow drives on the ground, and he taps, boom. If he's not going to tap like that, I'm just going to push it up, boom. I hope you guys like it.
