We just saw the underhook pass. Well, what we're going to see right now is the overhook pass. It's the opposite, okay? So, I'm against Karl here. I'm trying to get the underhook. Like I said earlier, it's an underhook lahr here. I want the underhook, but I can't. Karl gets it, okay? Here, there's no way I'm going to get it. So, what I'm going to try to do, is to bring him down and get the underhook on this side. So here, I'm wrapping the arm. And here, I have the underhook. So earlier, like I said, I'm always going to put my head on the ground on the opposite side of the underhook. So, I'm going to put my head on the ground there. And then it's going to be the same thing. I'm going to go for the pyramid and then the knee switch. The hip switch and the knee slice. But I'm going to have to slice all the way across his body. I'm not just freeing my leg. I'm going to cross with all my leg, with the knee cut from his body. So, it's going to be very important here that I'm high enough in my pyramid to free my knee. And it has to be, it can't be tight. It has to be free and be very safe. And then I can pass, okay? So, Karl gets the underhook. I'm going to go get the underhook here. Wrap the arm and go on the other side. Put my hand on the ground. Here, I'm super stable right now. If I can, I'm going to try to break his posture with the arm. Make sure he doesn't have any power on it. So, I'm up here. And now, my knee's out. This knee. I'm going to bring the other knee here, okay? And from there, I can get out. No matter if I kiss him. Let's do that again. Karl goes for the underhook. I go for the underhook here. Put my hand on the ground. I get the sleeve. I hold it. I drop it with my elbow. Pyramid, mount. I'm going to transfer my knee to the other side. And now, I can get out. No matter if I kiss him. Other angle. Here, Karl gets the underhook. I get the underhook here. I step on the ground. My knee's out here. It's clear. So, I can switch. And now, I get out. Didn't know if I'd kiss him.
