Okay, so from here we're going to go from to a leg entry from a platter. Okay, so from here Okay, again, we're going to go to rubber guard I'm going to push this one across and stuff his head in, okay Now I'm going to get the angle and he's up on his knees still now I'm going to control, I control and I'm going to drive my knee in Okay, keeping control, keeping this on his back. I come for this one through and I hook it now I'm going to come through here to this position So I've got the finish there or if he rolls I'm going to connect my feet and I drive my hip forward So again Yeah, connect, control Pushing through, going for the other platter, instead I come through, hook it, hook finish He rolls Triangle, hip against the knee Keep it a triangle, him and the match on the mat and drive my hip forward, get the finish last time
